

French Intent

Respect Our curriculum further encourages the respect we expect in our environment and provides a special opportunity for that with the emphasis on communication.

Resilience Our curriculum fosters our academy concept of resilience with a huge focus on trying our best even when we find something difficult because it is new or a little different to what we already know.

Independence Our curriculum encourages independence in speaking, listening, reading, and writing in French, in addition to understanding more about the culture of France. We develop speaking and listening skills and language learning knowledge that helps our children communicate more independently with others.

Exceptional We have high expectations for our children and expect them to speak, listen, read and write in French and develop a good understanding of the culture of France.

High aspirations In MFL, we lay the foundations for our children to learn new languages. We share aspirational stories of the benefits of understanding a second language.

Creativity In MFL, we encourage creativity in the learning of each strand of speaking, listening, reading, writing and intercultural understanding.
